

First Check:

Violation	Explanation
Extra “.pdf” extension	File <code>2025-P1-green-resources.pdf.pdf</code> has an incorrect name; only one “.pdf” extension allowed.
File size exceeds 1 MB limit	<code>2025-P1-green-brainstorming.pdf</code> (421 KB OK), <code>2025-P1-green-final.pdf</code> (185 KB OK), but <code>2025-P1-green-team-photo.png</code> (7.8 MB) violates the 1 MB per file and total ≤ 10 MB rule.
Unspecified files present	<code>AI-check-claims.pdf</code> and <code>AI-check-writing.pdf</code> are not part of required deliverables; inclusion violates allowed file list.
Missing required text files	<code>USAGE.txt</code> and <code>OVERVIEW.txt</code> are inside <code>src/</code> , but there’s no top-level copies. Specification requires them directly in the root folder.
No resources or brainstorming source folders	<code>brstm/</code> folder for presentation sources and <code>tex/</code> for LaTeX files exist but are empty; optional but expected if report was LaTeX-built.
Potential total size issue	Total 9.16 MB compressed $\approx > 10$ MB uncompressed $\rightarrow$ close to or above the 10 MB limit.
